

GIAN MARCOS MIRANDA ROMAN

787-505-1553 | gian.miranda1@upr.edu | Ponce, PR 00731

SUMMARY

Obtain a professional opportunity where I can apply my knowledge in computer science and software development, strengthen my analytical and technical skills, and gain experience in innovative projects within a collaborative environment.

EDUCATION

BS: Computer Science and Engineering **Major GPA: 4.00/4.00** **August 2024 - Present**
University of Puerto Rico at Mayaguez GPA 3.70/4.00 Expected Graduation – May 2029
Related Coursework: Data Structures, Foundations of Computing, Advanced Programming

EXPERIENCE

PandaHat Adversarial – Research – Nayda Santiago **February 2026 – Present**

- Work on developing machine learning models with a focus on Convolutional Neural Networks (CNNs). Our research investigates methods to improve power and energy efficiency in AI while training students in industry ML practices.

FT Innovations LLC -- MiUni -- Mobile App **July 2025 – Present**

- Designed and implemented an algorithmic system to manage pickleball tournaments within MiUni, modeling match flow, rounds, and edge cases using Flutter, Dart, and Firebase, and validating the system through iterative testing and simulated scenarios.
- Developed and integrated front-end and back-end systems to support analytical dashboards, enabling data-driven insights for restaurants, associations, apartments, and users.
- Enhanced MiUni's iPad features to improve cross-platform performance, responsiveness, and overall user experience using Flutter and Dart.
- Developed a cross-platform mobile application (iOS and Android) using Flutter and Dart that connects users with adoptable pets, integrating Firebase for real-time data storage and user interaction.

VEX Robotics World Championship **March 2018 – April 2018**

- Represented Puerto Rico in the World Robotics Competition VEX IQ Challenge

VEX Robotics World Championship **March 2017 – April 2017**

- Represented Puerto Rico in the World Robotics Competition VEX IQ Challenge

VEX Robotics World Championship **March 2016 – April 2016**

- Represented Puerto Rico in the World Robotics Competition VEX IQ Challenge

SKILLS

- Python, C++, Java
- Flutter, Dart
- Front-End, Back-End, Full-Stack
- Git, GitHub
- Robotics
- Machine Learning
